

COURTESY TRANSLATION

I am writing to you in relation to the Additional Declaration established by UK for *Bactericera cockerelli* in fresh fruit of the family *Solanaceae*.

In this regard, I inform you that the pest *Bactericera cockerelli* is included in the list of Regulated Pest List of Argentina and categorised as Absent Quarantine Pest.

For this reason, and with reference to the Phytosanitary Conditions Regulation (2019/2072) point 100 of Annex 7 part A (<https://www.legislation.gov.uk/eur/2019/2072>), I hereby inform you that the pest free area/s of this pest comprises the entire Argentine territory.

Below you will find the web sites for reference.
