Date 30 November 2021  
Re. Phytosanitary declaration for *Agrilus planipennis*

**Our ref.**  
NVWA 2021\_5928

Dear Ms. Spence,

With reference to your letter of 15 November 2021 regarding Phytosanitary declaration for *Agrilus planipennis* I would like to inform you as follows:

In the annex the declaration for the Netherlands ('country free from') is listed. We refer to Annex 7 part A of the Plant Health (Phytosanitary Conditions) (Amendment) (EU Exit) Regulations 2020.

As date of communication we use the date of this letter. 'Review' is assumed to be the period in which the status of *Agrilus planipennis* for the plant species mentioned is established. The period of survey may differ from one species to the other, hence different weeks although the organism is the same.

I assume the statement we now issue will be valid until the status changes. The other option would be an annual statement, the first being our option of preference.

In case you should need any further information, please contact my colleague Mr. van den Broek, contact details in colophon

I trust this information is of use to you and that it will contribute to undisturbed trade of healthy plants.

Yours sincerely,

Ton van Arnhem  
Director National Plant Protection Organisation
