1. Points to Note

Get ready for import/export – points to note	Web Links
For exports if you are a UK Haulier you need to be able to drive in the EU	https://www.gov.uk/guidance/prepare-to-drive-in-the-eu-after-brexit-lorry-and-goods-vehicle-drivers
Plant health requirements for both import and export also apply to most Fruit and Vegetables	https://www.gov.uk/guidance/importing-and-exporting-plants-and-plant-products-from-1-january-2021
Exports to the EU must comply with EU packaging and labelling requirements (marketing standards) – this applies to fresh Fruit and Veg only.	https://www.gov.uk/guidance/comply-with-marketing-standards-for-fresh-fruit-and-vegetables
If you use wooden pallets or wood packaging material to export your goods, these need to be ISPM 15 compliant.	<p>After the end of the Transition Period, all wood packaging material moving between GB and the EU must be treated and appropriately marked in compliance with international standards (ISPM 15).</p> <p>Contact your supplier or TIMCON if you need more advice. There are many sources of wood packaging material – one such list is available here https://www.timcon.org/ISPM15/Companies/</p>

2. Importing Fruits and Veg from EU to GB

1. Prepare For Import

Import to GB	
Note: There will be no changes to the GB imports for marketing standards until July 2021.	
<div style="border: 1px solid black; border-radius: 15px; background-color: #c8e6c9; padding: 10px; width: 100px; margin: 0 auto;">START</div>	<p>If you import, pack, distribute or sell Fruit or Veg, you must follow quality and labelling rules. https://www.gov.uk/guidance/comply-with-marketing-standards-for-fresh-fruit-and-vegetables</p> <p>If you import Fruits and Veg and green bananas from the EU into Great Britain (England, Scotland and Wales), marketing standards processes at GB borders will change from 1 July 2021. https://www.gov.uk/guidance/fresh-fruit-and-vegetable-marketing-standards-from-1-january-2021</p>
<div style="border: 1px solid black; border-radius: 15px; background-color: #42a5f5; color: white; padding: 10px; width: 100px; margin: 0 auto;"> 1.0 EU exporter applies for an EU EORI number to export </div>	<p style="text-align: center;">This action is for the EU exporter</p> <ul style="list-style-type: none"> This is a customs requirement. Every EU business exporting goods will need an EORI number from a customs authority in the EU even if they use a forwarder or a customs agent for export declarations. A business can apply for an EORI number from customs authorities across the EU. <p>https://ec.europa.eu/taxation_customs/national-customs-websites_en The link is here https://www.gov.uk/eori</p>
<div style="border: 1px solid black; border-radius: 15px; background-color: #42a5f5; color: white; padding: 10px; width: 100px; margin: 0 auto;"> 1.1 EU exporter checks GB requirements </div>	<p style="text-align: center;">This action is for the EU exporter</p> <ul style="list-style-type: none"> Consider if your goods are subject to marketing standards https://www.gov.uk/guidance/fresh-fruit-and-vegetable-marketing-standards-from-1-january-2021 Consider the pre-notification requirements for your goods under plant health regulations Is my plant notifiable? Please refer to the Plant Health (Phytosanitary Conditions) (Amendment) (EU Exit) Regulations 2020 legislation - https://www.legislation.gov.uk/ukdsi/2020/9780348213706/schedule/10 Schedule 10 Part A sets out the list of plants and products that will need to be pre-notified from April. This same list will then require physical inspections at a BCP from July 2021. If your goods are notifiable under plant health requirements you will need to apply for a Phytosanitary Certificate and pre-notify from April. If the plant product is not notifiable there will be no changes until July

<p style="text-align: center;">1.2 EU exporter to register as a professional operator on EU CA system</p>	<p style="text-align: center;">This action is for the EU Exporter</p> <p>Anyone who exports to GB will need to be registered with the EU CA. They need to contact their EU CA. Contact points are available for Member States (MSs) on the https://www.ippc.int/en/countries/all/list-countries/</p>
<p style="text-align: center;">1.3 Is the importer registered on IPAFFS system?</p>	<p style="text-align: center;">This step is for the importer</p> <ul style="list-style-type: none"> • The importer and importer’s agent, needs to register on IPAFFS for marketing standards purposes prior to importing to ensure no delays to the consignment. • Some Fruits and Veg are also regulated plant products and these will require pre-notification on IPAFFS from April. • From July, even if your Fruit and Veg generally does not require pre-notification from a plant health perspective there is a possibility that CHIEF/CDS will select them for checking and then require pre-notification. • This additional requirement for pre-notification applies to a small sample of non-notifiable plants for plant health plus a small sample of General Marketing Standards (GMS) and a small sample of Specific Marketing Standards (SMS) Fruit and Veg (whether already notified or not) for HMI so it is prudent to have registered on the new IPAFFS IT service as soon as practicable in order to reduce delays. • If your Fruits and Veg lands/arrives in England or Wales you will need to use the new IPAFFS IT service. • Please note, if it lands in Scotland the Scottish Gov do not use IPAFFS IT service, so exporters would need to follow the relevant registration processes for Scottish Government until they have access. • Pre-notification will be required for all HMI SMS good from Jan 2023. Notification for GMS goods will only be required if requested to do so following the import declaration.

2. GB Marketing Standards

Import to GB

1 Jan – 30 Jun 2021

- Current third country processes remain the same for those countries, including those which have retained AIS status as per annex IV of EC reg 543/2011.
- For produce of EU origin, we will not be inspecting Specific Marketing Standards (SMS) or General Marketing Standards (GMS) Fruit and Veg during this time.
- An EU issued certificate of conformity will not be required for release into free circulation into GB.

1 July 2021 – 1 Jan 2023

- Using the notification that the importer makes on CHIEFS/CDS for customs, a small sample of imports from the EU (SMS, GMS and green bananas) will be selected for checks to ensure they are complying with GB marketing standards.
- CHIEF/ CDS will randomly select this small sample for GB certificate of conformity with an error report on the Customs entry – this means you need to have a marketing standards check. Traders will then apply through the new IPAFFS IT service, if they have not already done so and these will be physically inspected at the border and GB CoC will be issued, before release into free circulation can occur as edible Fruit and Veg.
- An EU issued certificate of conformity will not be required for release into free circulation into GB.

Between 1 Jan 2021 and 31 Dec 2022

- EU countries can apply for UK Approved Inspection Service (AIS) as under Art 15 of EU reg 543/2011, to become listed as an AIS.

From Jan 23 onwards

- All SMS plant products and green bananas imported from the EU will need to be pre-notified for HMI purposes on the new IPAFFS IT service
- All SMS will need to be accompanied by a certificate of conformity from an EU country that has AIS status or apply for one at the GB border.
- If the country does not have AIS status then the SMS plant product will be subject to a risk assessment within the new IPAFFS IT service. This assessment will either result in the issue of a GB certificate of conformity or flag to the HMI/Scottish government that a conformity check is needed at the border - this is akin to existing 3rd country process.
- For GMS products, a small sample of imports from the EU will be selected for checks to ensure they are complying with GB marketing standards.
- SMS commodities – apples, pears, grapes, kiwis, citrus, peaches, nectarines, strawberries, lettuce, tomatoes, sweet peppers
- GMS commodities - covers most other Fruits and Veg.

3. Certificate of Conformity (CoC): From July 2021

Import to GB	
<div style="border: 1px solid #ccc; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.1 EU exporter applies for CoC from EU CA</p> </div>	<p style="text-align: center;">This action is for the exporter</p> <ul style="list-style-type: none"> • There will be a different processes in different Member States (MSs) so the EU exporter will need to contact the Marketing Standards Competent Authority in their Member State. • The following steps and processes are largely similar in each MS Note: you will need a separate CoC for every separate consignee/destination
<div style="border: 1px solid #ccc; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.2 EU CA receive and process CoC application</p> </div>	<p style="text-align: center;">These actions are for the EU Competent Authority</p> <p>Fees may apply in some Member States and may differ between Member States but processes will largely be the same</p>
<div style="border: 1px solid #ccc; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.3 EU CA carries out conformity check</p> </div>	<p style="text-align: center;">These actions are for the EU Competent Authority</p> <p>This may or may not require a physical inspection.</p>
<div style="border: 1px solid #ccc; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.4 EU CA issues CoC to EU exporter to include with the consignment</p> </div>	<p style="text-align: center;">These actions are for the EU Competent Authority</p> <ul style="list-style-type: none"> • As a result of the inspection the CoC may not be issued in which case the export cannot occur. • If the CoC is issued, then go to next step.
<div style="border: 1px solid #ccc; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.5 EU exporter notifies GB importer</p> </div>	<p>The EU exporter may provide a copy of the CoC to the GB importer but this is not essential until Jan 2023 when a CoC will be required for movement in GB (either via an EU CoC from an AIS country or a GB CoC issued at the GB border).</p>

4. Prepare For Shipping:

Import to GB	
<p style="text-align: center;">4.1</p> <p style="text-align: center;">From July – you need to submit imports declaration on CHIEF/CDS</p>	<p style="text-align: center;">These actions are for the importer</p> <ul style="list-style-type: none">• Import declarations for all Fruits and Veg are deferred for the first 6 months as Fruits and Veg goods are not on the controlled list until July.• This means that between January and July you can choose to either make a simplified (frontier) customs declaration and provide a supplementary declaration within 6 months of import OR use existing customs process to complete a full imports declaration at the point of entry to GB.

5. Arrives In GB:

Import to GB	
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.1 Goods arrive in GB</p> </div>	<p style="text-align: center;">Actions that need to be taken at the GB Border</p> <ul style="list-style-type: none"> From July 2021 a small sample of SMS and GMS Fruit and Veg will be selected from declarations to Customs and require a certificate of conformity at the border. If selected importer will need to notify CA via IPAFFS or contact Scottish Government.
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.2 From April Plant health checks</p> </div>	<p style="text-align: center;">Actions to be taken by the GB Competent Authority</p> <ul style="list-style-type: none"> From April some fruit and Veg is classed as notifiable and is already notified on IPAFFS and subject to documentary checks (checking of the EU Phytosanitary Certification) Documentary checks take place at the office and is not a physical check. From July, in addition to checks on Fruit and Veg already notifiable, a small sample of Fruit & Veg will be selected by CHIEFS/CDS for plant health purposes and these will be subject to physical checks and pre-notification on the new IPAFFS service / Scottish government Physical and identify checks for plant health purposes consist of visual inspections to ensure they are pest free and to verify the content and labelling of the consignment. <p style="color: #4285f4;"><i><Demo of IPAFFS></i></p>
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.3 From July HMI checks</p> </div>	<p style="text-align: center;">Actions to be taken by the GB Competent Authority</p> <ul style="list-style-type: none"> From July 2021 a small sample of SMS and GMS Fruit and Veg will be selected by CHIEFS/CDS (from customs declarations) for HMI purposes and require a certificate of conformity at the border. To gain the certificate of conformity a physical check may be carried out. Physical checks consist of visual inspections of goods to ensure they meet the quality and labelling requirements of the marketing standards. These checks also confirm the amounts of the goods, to ensure the correct quantity of the consignment. A GB CoC is then issued in order to ensure that it conforms to the required quality and labelling standards.
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.4 GB CA updates IPAFFS with outcome of inspection</p> </div>	<p>This action is for the GB Competent Authority</p>

<p style="text-align: center;">5.5 GB system receives update and a decision is required if goods can be released</p>	<p style="text-align: center;">This actions is to be done by GB Border</p> <p>If yes go to step 5.6. If no go to step 5.7.</p>
<p style="text-align: center;">5.6 Goods are released to importer.</p>	<p style="text-align: center;">This action is to be done by the GB Border</p> <ul style="list-style-type: none"> • From January – July there is no holding for customs reasons • From July an automated customs release of goods will be arranged – in Scotland this will be via a paper Certificate of Conformity being issued until they are linked to IPAFFS IT service
<p style="text-align: center;">5.7 Goods may be held for other reasons, such as plant health/fraud/smuggling/not paying a tariff</p>	<p style="text-align: center;">This actions is to be done by GB Border</p> <ul style="list-style-type: none"> • This can include PHSI, Scottish Government and other government agencies such as UKBF • This is relevant for goods that have had physical checks. • If this is the case, the process ends here
<p style="text-align: center;">5.8 Goods arrive with customer</p>	<p style="text-align: center;">This action is for the importer/exporter</p>
<p style="text-align: center;">END</p>	<p style="text-align: center;">This is the end of the process.</p>

3. Exporting Fruits and Veg from GB to EU

1. Prepare to Export

Export to the EU	
<div style="border: 1px solid #ccc; border-radius: 10px; background-color: #c8e6c9; padding: 10px; width: 100px; margin: 0 auto;">START</div>	<p>If you Export Fruit and Veg from Great Britain (England, Scotland and Wales) into the EU, marketing standards processes at GB borders will change from 1 January 2021. https://www.gov.uk/guidance/fresh-fruit-and-vegetable-marketing-standards-from-1-january-2021</p>
<div style="border: 1px solid #ccc; border-radius: 10px; background-color: #5dade2; padding: 10px; width: 100%; margin: 0 auto;"> <p style="text-align: center;">1.1</p> <p style="text-align: center;">To export from GB to the EU you will need a GB EORI number</p> </div>	<p style="text-align: center;">This action is for the Exporter</p> <p>To export goods to the EU, you will need a GB EORI number. For further guidance, see: https://www.gov.uk/eori</p>
<div style="border: 1px solid #ccc; border-radius: 10px; background-color: #5dade2; padding: 10px; width: 100%; margin: 0 auto;"> <p style="text-align: center;">1.2</p> <p style="text-align: center;">GB exporter checks EU import requirements in advance</p> </div>	<p style="text-align: center;">This action is for the Exporter</p> <ul style="list-style-type: none"> To export your Fruit and Veg to the EU you will need to meet EU Marketing Standards. The EU has guidance on how to export Fruit and Veg to the EU and this contains information related to Specific Marketing Standards (SMS - those that require CoCs) See: https://www.gov.uk/guidance/comply-with-marketing-standards-for-fresh-fruit-and-vegetables#specific-marketing-standard Exporter will need additional certifications for their commodities, subject to other EU requirements example: Phytosanitary Certificate (PC) for regulated plants from January https://ec.europa.eu/food/plant/plant_health_biosecurity/legislation/new_eu_rules_en

1.3

Exporter to register on relevant GB Competent Authority (CA) IT system

This action is for the Exporter

- The exporter, and exporter's agent (where applicable), needs to register on the relevant export notification system for Fruits and Veg purposes before exporting to ensure there are no delays to the consignment.
- You should continue to use PEACH until you are directed to register and use Export Health Certificate Online (EHCO). The timing and sequencing of this migration will ensure a smooth and orderly transfer between systems and will allow sufficient time for you to become familiar with the new service. We will be providing comprehensive training and support during and after migration.
- For England and Wales, you will need to register on PEACH for export of Fruit and Veg, Please go to: <http://ehmipeach.defra.gov.uk/Default.aspx?Module=Register>
- Until Scotland has access to EHC online – for exports from Scotland please visit: <https://www.sasa.gov.uk/eu-exit-guidance/fresh-fruit-and-vegetable-marketing-standards-eu-exit-guidance> or email: hort.marketing@gov.scot

2. EU Marketing Standards

Export to the EU

Fruit and vegetable Marketing Standards:

Export process post 1 January 2021.

From 1 January 2021 all exports of fruits and vegetables covered by Specific Marketing Standards (SMS) (to EU and existing Third Countries) will require a certificate of conformity prior to clear export customs process.

To apply for a GB-issued certificate of conformity:

- Use the [PEACH system](#) (England and Wales)
- Contact SASA Horticulture and Marketing Unit at hort.marketing@gov.scot (Scotland)

You must comply with the third country import requirements as defined in the EU marketing standards regulations if you export Fruits and Veg from GB to the EU from 1 January 2021.

Approved Trader Scheme:

If a trader consistently meets the requirements of the latest marketing standards, they can apply to the Horticultural Marketing Inspectorate for approved trader status. This applies to traders who sell Fruit and Veg that they either grow, pack, import and / or export.

ATS status means that traders are considered as lowest risk, and will attract fewer inspection visits and fewer checks on any regulated produce marketed by that business and stored at their premises, whether for importing, export or within Great Britain. In addition they will, in most cases, automatically be issued with a certificate of conformity without inspection.

For more information about ATS, contact:

- HMI by emailing APHAHMIATSapproval@apha.gov.uk (England and Wales)
- SASA's Horticulture and Marketing Unit by emailing hort.marketing@gov.scot (Scotland)

Approved Inspection Service (AIS):

The UK has applied to the EU to become an AIS country. This is likely to be granted by 1 Jan 2021. This means that a certificate of conformity for GB grown produce will be accepted at the EU border for release into free circulation within the EU.

For products of non-UK origin whilst a certificate of conformity is required for export, further checks may also be required at the EU border, exporters will need to prepare for these requirements. Exporters will need to check with the EU country of import.

- [SMS commodities](#) – apples, pears, grapes, kiwis, citrus, peaches, nectarines, strawberries, lettuce, tomatoes, sweet peppers
- To be fit for sale, the SMS goods must meet certain criteria – [Click here](#)
- [Click here](#) to know more about grade and quality classes.
- [Click here](#) to know more about labelling.

3. Certificate of Conformity (CoC)

Export to the EU	
<div style="border: 1px solid black; border-radius: 15px; background-color: #4a90e2; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.1 Exporter applies for certificate of conformity</p> </div>	<p style="text-align: center;">This action is for the GB CA</p> <ul style="list-style-type: none"> • From January you should use PEACH and from (date tbc) you should use EHC Online. • Until Scotland has access to EHC online – for exports from Scotland please visit: https://www.sasa.gov.uk/eu-exit-guidance/fresh-fruit-and-vegetable-marketing-standards-eu-exit-guidance or email: hort.marketing@gov.scot • If the applicant is ATS approved the system will issue a certificate of conformity automatically. You can then print this off to send or download it as a file to email the National Clearance Hub (NCH) nch@hmrc.gov.uk • If the applicant is not ATS approved, the system will highlight to HMI and require risk assessment as to whether a physical inspection is required or a certificate of conformity can be issued automatically – this is subject to the inspector’s decision. • If you are not ATS approved you should allow at least 24 hours prior to export to enable any inspections to be undertaken by the CA. <p><i><Demo of PEACH></i></p>
<div style="border: 1px solid black; border-radius: 15px; background-color: #4a90e2; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>3.2 HMI / Scottish Gov carry out physical inspection</p> </div>	<p style="text-align: center;">This action is for the GB CA</p> <ul style="list-style-type: none"> • If goods meet the marketing standards a certificate of conformity is issued via PEACH. • If goods fail then exporter is informed why and they can then bring product back into conformity if possible and resubmit an application to PEACH/Scottish Government.

4. Prepare for shipping

Export to the EU	
4.1 HMI /Scottish Gov issues CoC to exporter so that it can be included with the consignment	<p style="text-align: center;">These actions are for the Exporter/importer</p> <ul style="list-style-type: none"> • CoCs will be issued to the Exporter on-site so that it can be included with the consignment. • CoCs that are not issued on-site will have to be downloaded from PEACH account, once the HMI approves the consignment on PEACH, or will be emailed by Scottish Government. • A copy of the CoC needs to be emailed to the National Clearance Hub for clearance prior to export (there is a minimum 2 to 3 hour window allowance for HMRC NCH for all goods going Route 1). • Your customs entry will supply detail of when the load is cleared for export.
4.2 Pre –notify the EU CA using the relevant MS system	<p style="text-align: center;">These actions are for the Importer</p> <ul style="list-style-type: none"> • The goods have to be notified to the Member State in sufficient time – these times may be different in different MSs • Different MSs have different pre-notification systems for Fruit and Veg
4.3 Exporter/agent completes export customs declaration on CHIEF/CDS	<p style="text-align: center;">These actions are for the Exporter</p> <p>Declaration of consignment with valid CoC will be done on CHIEF/CDS for export to the EU.</p>
4.4 Exporter sends goods	<p style="text-align: center;">These actions are for the Importer</p> <ul style="list-style-type: none"> • Consignments will have to be exported before the end of the validity period of a CoC. • The validity period can vary from e.g. 2 days for strawberries and 7 days for apples.
4.5 Importer/Agent completes import customs declaration on EU MS Customs platform and Pre-Notification point of entry EU CA (relevant system used by Member State)	<p style="text-align: center;">These actions are for the Exporter/importer</p> <p>The goods has to be notified to the Member State in sufficient time.</p>

5. Arrives in the EU

Export to the EU	
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.1 Goods arrive at EU Border</p> </div>	<p style="text-align: center;">Actions that need to be taken at the EU Border</p> <ul style="list-style-type: none"> • Importer will need to declare entry to EU countries customs system and apply to countries CA to obtain a certificate of conformity. • If goods are of UK origin then the GB CoC will allow entry in to free circulation. However a small sample of these goods may require checks. (Assuming GB is listed in EU's AIS and the consignment has a GB issued CoC) • If goods are of non-GB origin a CoC will need to be applied for through the country's CA by the exporter or importer, before release into free circulation.
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.2 Are goods selected for physical and conformity checks?</p> </div>	<p style="text-align: center;">Actions to be taken by the EU Competent Authority</p> <ul style="list-style-type: none"> • Physical and conformity checks may consist of visual inspections of goods to ensure they meet the quality and labelling requirements of the marketing standards. These checks also confirm the amounts of the goods, to ensure the correct quantity of the consignment. • These checks may vary dependent on the Member State (MS).
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.3 Do goods pass all physical and conformity checks</p> </div>	<p style="text-align: center;">Actions to be taken by the EU Competent Authority</p> <ul style="list-style-type: none"> • If goods pass the checks then the process continues using the GB CoC -for goods of GB origin • If they don't pass, the importer will be informed and may decide to bring the goods back into conformity and re-submit an application for a CoC. <i>(this may vary dependent on the Member State (MS))</i>
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.4 EU system receives update and EU CA decides if goods can be released?</p> </div>	<p style="text-align: center;">Actions to be taken by the EU Competent Authority</p> <ul style="list-style-type: none"> • To note goods may be held at the border other reasons such as fraud, smuggling, non-payment of a tariff
<div style="border: 1px solid black; border-radius: 15px; background-color: #4285f4; color: white; padding: 10px; width: fit-content; margin: 0 auto;"> <p>5.5 Goods are released to the importer</p> </div>	<p>Action to be taken by EU Border</p>

<p style="text-align: center;">5.6 Goods arrive at destination.</p>	<p style="text-align: center;">Action to be taken by EU Border</p>
<p style="text-align: center;">Note: Movement of goods between GB – Northern Ireland (NI)</p>	<p style="text-align: center;">This action is for the GB Traders</p> <ul style="list-style-type: none"> • For Day 1 (Jan 2021), GB traders need not apply for GB issued CoC for moving goods between GB and NI. • Fruit and vegetables moved from GB to NI will need to enter through designated points of entry and meet EU import marketing standards requirements. • Further information will be provided shortly.
<p style="text-align: center;">END</p>	<p style="text-align: center;">This is the end of the process.</p>

APPENDIX

Summary of IT services used for Import and Exports for fruit and veg fresh produce

Import	IT Services for Fruits & Veg (fresh produce HMI)	IT Services for Plant Health (fresh produce)
Jan	Not required for EU	Not required for fruit and veg plants until April
April	Not required for EU	IPAFFS
From July	IPAFFS	IPAFFS
Export	IT Services for Fruits & Veg (fresh produce HMI)	IT Services for Plant Health (fresh produce)
Jan	PEACH	E-Domero
From Feb (Date TBC)	PEACH	EHC online
From July	EHC Online	EHC Online

Glossary

APHA	Animal Plant Health Agency
AIS	Approved Inspection Services
ATS	Approved Trader Status
CA	Competent Authority
CoC	Certificate of Conformity
CHIEF	Customs Handling of Import and Export Freight
CIT	Centre of International Trade
